

ABC Analytics Pvt. Ltd. – Annual Report 2024

Company Overview

Company Name: ABC Analytics Pvt. Ltd.

Founded: 2016

Headquarters: Bengaluru, India

Industry: Data Science & Artificial Intelligence

ABC Analytics Pvt. Ltd. is a technology-driven organization specializing in **AI-powered analytics, predictive modeling, and enterprise data solutions**. The company serves clients across healthcare, finance, and retail sectors.

Mission & Vision

Mission:

To empower organizations through intelligent data-driven solutions.

Vision:

To become a global leader in applied artificial intelligence and analytics.

Financial Performance (FY 2023–2024)

Metric	Value
Total Revenue	₹125 Crores
Net Profit	₹32 Crores
Year-on-Year Growth	18%
Operating Margin	26%

Human Resources Summary

- Total Employees: **420**
 - Data Scientists: **140**
 - Software Engineers: **180**
 - Support & Operations Staff: **100**
-

Key Projects Delivered

1. Healthcare Predictive Risk System

Developed a machine learning system to predict ICU readmission risks using patient vitals, lab reports, and historical clinical data.

2. Retail Demand Forecasting Platform

Built a time-series forecasting solution to optimize inventory and reduce stock-outs across 200+ retail outlets.

3. Financial Fraud Detection Engine

Implemented anomaly detection models to flag suspicious transactions in real time.

Technology Stack

- **Programming:** Python, R, SQL
 - **Machine Learning:** Regression, Classification, Clustering, Time Series
 - **Deep Learning:** Neural Networks, LSTM
 - **Databases:** PostgreSQL, MongoDB
 - **Cloud Platforms:** AWS, GCP
-

Data Security & Compliance

- ISO 27001 Certified
 - GDPR and HIPAA compliant
 - Regular penetration testing and audits
-

Future Roadmap (2025–2026)

- Expansion into GenAI-based analytics
 - Deployment of LLM-powered decision support systems
 - Increased focus on automation and MLOps
 - Hiring 80+ AI engineers
-
